NutriFeron™
Breakthrough immune protection – patented, exclusive formula

THE CHALLENGE
Every day our bodies are under attack by pathogens, allergens, and dangerous microbes that infest our surroundings with an unseen, unfelt, yet undeniable health threat. Our body’s built-in immune system protects us whenever possible, but it’s under constant attack from poor nutrition, stress, pollution, and fatigue.

NUTRIFERON
NutriFeron is a powerful breakthrough in immune system science. It is a patented, clinically proven blend of immune-strengthening plant extracts. For daily use, it increases the production of your body’s natural interferon, a critical activator of the immune system. NutriFeron works at the cellular level in two ways:

• Rapidly activates your immune system’s defenses*
• Mobilizes the immune system’s “search-and-destroy” teams*

THE SHAKLEE DIFFERENCE

• NutriFeron is the only immunity supplement formulated by the discoverer of natural interferon, after an exhaustive review of 200 natural compounds.
• Patented, Clinically Proven Formula
  In published clinical studies, NutriFeron’s potent-yet-safe phytonutrient blend provided immune support right at the cellular level. It’s the natural way to keep your immune system finely tuned and on ready alert. In essence, it takes the defenses you already have and makes them even better.*

• Available exclusively through Shaklee, NutriFeron is a powerfully effective supplement that has exceeded a stringent set of scientific tests for safety, purity, potency, and clinical tests for performance.

WHO WILL BENEFIT FROM NUTRIFERON?

• Everyone over twelve years of age whose busy, stressful lifestyles place their immune systems under constant attack
• Those who want to be proactive in optimizing their immune response against environmental irritants and airborne pollutants

HOW SHOULD IT BE USED?
The recommended serving of NutriFeron is two caplets daily. If pregnant or nursing, please ask a health care professional.

SCIENTIFIC EVIDENCE IN SUPPORT OF THE INGREDIENTS IN NUTRIFERON

• In published clinical studies, the potent-yet-safe phytonutrient blend in NutriFeron provided immune support right at the cellular level.
• Preliminary laboratory studies suggest that in as little as three days, NutriFeron can unleash the full potential of the immune system.
